

*“Let’s take action against leukemia ...”*

The ELN Foundation is a non-profit charitable organisation that supports the goals of the ELN.

The intention of the ELN Foundation is to use this multinational network to advance leukemia research worldwide to save lives by improving medical care and treatment optimization.

### **Our Strategy**

“The ELN Foundation will offer access to its Academic Clinical Research Network, providing knowledge and expertise in the development, placement and conduct of early phase clinical trials and providing infrastructure for larger, multi-centre clinical trials.”

### **Our aim**

Encourage sharing of best practice to improve patient care and to use educational activities to spread excellence in leukemia research.

### **Goals**

- Provide leadership for improved prevention, screening and treatment of leukemia.
- Reinvigorate clinical development of new leukemia drugs.
- Ensure patients have faster access to innovative medicines with a greater certainty about their use.
- Establish Leukemia Registries to provide clinicians with a clearer picture of the biology and current clinical management of the disease.
- Increase life expectancy and quality of life for leukemia patients worldwide.

*... Help us to make a difference”*
